

Engage Mainland North's second annual Hats & Mittens Project

This project collects new or cleaned gently used hats, mittens and scarves to donate for the needy. When cold weather rolls in, we head into that time of year when needs are greatest. We are reaching out to the community and asking everyone to check their winter gear bins and come together to help people stay warm in the winter by gathering as many donations as possible over the next few months.

The project will run to **Friday, December 29, 2017.**

This year's project will benefit the local **YMCA Centre for Immigrant Program** which offers a variety of programs and outreach services to help newcomers integrate into their new community, in an environment that is inclusive and welcoming.

If you'd like to become involved or have questions, phone 902-430-8349, email engagemainlandnorth@gmail.com or visit us on Facebook. Thank you for your donation!
