

FACILITY REOPENING PLAN DURING COVID-19

Welcome Back!

As always, the health and safety of our members, users and staff is our first priority. To support this priority during the COVID-19 pandemic, additional measures and changes in services are required. Our reopening plan follows the current advice of Public Health experts, mandated legislation and takes into consideration best practices from similar facilities and sports organizations in Canada and internationally.

The reopening section of our website explains what to expect at the CGC as we reopen in stages. Please keep in mind that public health information and provincial directives can change quickly. We will make every effort to update our website as fast as possible as we adapt to these changes.

This document supports our website as it archives the details from reopening stages for reference.

Virtual Fitness

Healthy Habits, Active Advice

After the facility closed in mid-March, we wanted to help our CGC community stay engaged and keep up with a healthy routine. Our [Healthy Habits, Active Advice](#) became a hub for fitness tips, tricks and recommendations, meditation exercises, CGC puzzles, family activity ideas, and more!

May Fitness Challenge

In May, our Fitness Team launched a Fitness Challenge meant to spark your healthy habits with a month-long workout guided by our CGC Exercise Specialists and Fitness Team. The training plan included live workouts and at-home strength and core workout videos to help with the moves. Over 350 participants registered the May Challenge.

June Fitness Challenge

Based on participant feedback from May, June's Fitness Challenge includes 5 live classes a week, at-home strength workouts, plus virtual workshops and live Ask A Trainer sessions.

Safety & Cleaning Practices

STAYING HEALTHY

We've implemented a number of new cleaning and safety measures for our reopening. Following the Public Health guidelines for facilities, our new protocols for safety include health screening, social distancing, building wide touch-free initiatives, augmented cleaning practices, and reminders of good hand washing & respiratory hygiene.

Masks Required — Effective July 31st, 2020:

- Under the directive from Public Health, wearing a mask is required while inside the CGC. Masks can be removed when exercising/directly engaged in physical activity but required at all other times.
- User exemptions as per Public Health: *Children under two are exempt, as well as children aged two to four when their caregiver cannot get them to wear a mask. People with a valid medical reason for not wearing a mask are exempt. Schools, daycares and day camps continue to follow their reopening plans.* (<https://novascotia.ca/news/release/?id=20200724004>). Please note, this includes CGC summer campers; they are exempt from wearing masks inside the facility.
- Using a mask alone isn't enough to prevent the spread of COVID-19. Continue to follow all other Public Health and CGC protocols like keeping your hands clean, following cough and sneeze etiquette, social distancing guidelines, and staying home if feeling sick.
- Learn more about [non-medical masks](#), how to [make a non-medical mask](#) and [how to wear a non-medical mask](#).

Overview

- To kick-start our safety and cleaning practices, we performed a complete deep clean of the facility and many maintenance projects during the closure.
- Reduced facility hours and activity times scheduled to support enhanced cleaning periods during the day and deep cleaning at night.
- Amenity and activity specific modifications and disinfecting practices to support current Public Health protocols.
- Health screening during online booking and before entry into the facility.

- Separate entrance and exits doors, directional signage, stanchions and staff to guide you through the facility and help you maintain social distancing.
- Hand sanitizer will be available to users and staff throughout the facility before entering the activity areas and prior to high-touch surfaces. Frequent cleaning by staff of high-touch surfaces throughout the facility will also take place.
- Plexiglass installed at Customer Service Desk, Field House Desk and Fitness Centre Desk.
- All staff are required to wear masks or shields where social distancing cannot be achieved.
- All staff will be trained in proper cleaning measures, products, tools and equipment.

Cleaning Equipment

- The **Graco Sani Spray HP Cordless Airless Disinfectant Hand Sprayer** delivers the proper atomization required to quickly and consistently coat surfaces to disinfect and sanitize efficiently. This will be used throughout the building including washrooms, Aquatics Centre, Fitness Centre machines and items that require disinfectant after use.
- The addition of the **Graco Sani Spray HP 65 Electric Airless Disinfectant Sprayer with Hopper** allows us to use it in bigger spaces for optimized time cleaning. The Hopper delivers the proper atomization required to quickly and consistently coat surfaces to disinfect and sanitize efficiently.

Cleaning Products

PRESS PLAY | STAGE 1 – BOOKING & CAPACITY

Online Booking

As we reopen the facility in stages, the safest way to manage capacity, enhanced cleaning and current Public Health protocols is through online booking of all available activities. It also enables you to guarantee your workout time.

When creating our activity booking time slots, we considered things like dedicated time for seniors and immunocompromised individuals; square footage of each area as it relates to social distancing; staggering start times to reduce the number of people in hallways at any given time, and adequate time for cleaning between time slots. As we progress through our reopening stages, we'll continue to monitor our booking strategy and use your feedback to help update our procedures where needed.

PRESS PLAY | STAGE 2 – BOOKING & CAPACITY

Booking

As we reopen the facility in stages, the safest way to manage capacity, enhanced cleaning and current Public Health protocols is through online or in-person booking of all available activities. It also enables you to guarantee your workout time.

When creating our activity booking time slots, we considered things like dedicated time for seniors and immunocompromised individuals; square footage of each area as it relates to social distancing; staggering start times to reduce the number of people in hallways at any given time, and adequate time for cleaning between time slots. As we progress through our reopening stages, we'll continue to monitor our booking strategy and use your feedback to help update our procedures where needed.

Stage 2: My regular membership is pre-paid, why do I need to buy a Press Play Pass?

Tips for Happy Lane Mates (Lane Swim Etiquette):

- Always swim in a counter-clockwise fashion, even if only two of you are in the lane.

- Be cautious and courteous when passing or being passed. If you accidentally kick someone, a quick apology as acknowledgment goes a long way.
 - When stopped at the wall, stay to one side of the lane. While you don't have to social distance while in the pool, we still encourage you to do so.
 - When starting a length, be mindful of not cutting immediately in front of anyone.
 - Not mandatory, but we find a smile and greeting to lane mates when the opportunity presents itself tends to make the whole experience more enjoyable for all.
-

Open Swim

BOOKING & CAPACITY | December 21, 2020 - April 22, 2021

Booking

The safest way to manage capacity, enhanced cleaning and current Public Health protocols is through online booking of all available activities. It also enables you to guarantee your workout time.

When creating our activity booking time slots, we considered things like dedicated time for seniors and immunocompromised individuals; square footage of each area as it relates to social distancing; staggering start times to reduce the number of people in hallways at any given time, and adequate time for cleaning between time slots. As we progress through our reopening stages, we'll continue to monitor our booking strategy and use your feedback to help update our procedures where needed.
