WHAT'S THE DIFFERENCE BETWEEN CGC'S REGISTERED FITNESS PROGRAMS AND THE DROP-IN FITNESS CLASSES INCLUDED IN YOUR MEMBERSHIP OR DAY PASS?

Registered programs are designed for the participant who wishes to progress over the course of a program. For a healthy body, it is essential that we balance stretching and strengthening. If we don't, repetitive movements combined with a lack of strength can result in overloading the joints and create injury or hinder healing. Incorporating free weights into a yoga practice can help build strength & balance in certain stabilizing muscles, which are difficult to target alone. Resistance bands and light dumbbells will be used for a fun yoga class with strength-training woven in throughout. Warm up and move through a combination of yoga postures using weights and strength building motions. Great for those with a lot, little or no experience! Senior friendly and modifications offered.

Yin Yoga is a slow paced, soothing, and meditative style of yoga mainly practiced on the floor. It offers a much deeper access to the body compared to other 'yang' or active practices and it consists of a series of passive poses held for longer periods of time. Yin can be challenging despite being a slower paced practice. The ability to care for your body and sit in the discomfort takes practice. At a physical level it targets the deeper connective tissues of the body, such as the fascia, ligaments, joints, bones improving flexibility and the joint mobility, increasing the blood and lymphatic circulations, releasing tension, and greater stamina. It is a great way to compliment your regular exercise and increase your overall wellbeing.

■ PARENT & TOT PROGRAMS

Ages 4 months – 3.5 years

35 minutes each

Members \$97.92, Non-Members \$130.50

The Lifesaving Society Parent & Tot program focuses on in-water interactions between the parent and child to teach water-positive attitudes and skills through play. Activities and progressions are based on child development and teach all families the importance of being “within arms’ reach” and other Water Smart® safety tips. Parent & Tot focuses on playful interactions and sharing fun between the child, parent/guardian, and the water. Activities and progressions are based on child development - parents must register in the appropriate level for the child’s age*. Swimmers must be accompanied by one parent/guardian in the water.

**Children must be within the age requirements by the start date of the program (the first swim lesson). Swimmers must be accompanied by one parent/guardian in the water.*

PARENT & TOT 1 | 4-12 months

Parents/Guardians will learn how to safely hold their 4–12-month-old infant with guidance from a Lifesaving Society certified Swim Instructor. Parents/Guardians will also learn simple tips and tricks to help prepare their child for underwater submersion.

PARENT & TOT 2 | 12-24 months

Lifesaving Society certified Swim Instructors will lead sessions to help parents/guardians with 12–24-month-old children safely explore water together. By using games with aims, parents/guardians learn how to support the child while floating, kicking, getting their face wet and blowing bubbles. Instructors also introduce recovering objects from below the water.

PARENT & TOT 3 | 2-3.5 years

Parents/guardians will work towards supporting their 2-3.5-year-old toddlers in becoming more independent in the water. Some skills include independently getting in and out of the water, underwater submersion, and learning how to do starfish floats and pencil glides.

■ PRESCHOOL PROGRAMS

Ages 3-5.5 years old

35 minutes each

Members \$97.92, Non-Members \$130.50

The Swim for Life Preschool Program gives children an early start on learning how to swim. Children 3-5 years old* will start to develop foundational Water Smart® skills and become more comfortable in the water. The Swim for Life Preschool levels are divided by ability and comfort in the water and focus on meeting the child where they are at and teaching them to be a safe, independent swimmer.

**Children must meet minimum age requirements by the start date of the program (the first swim lesson).*

PRESCHOOL 1

Preschool 1 focuses on building confidence in the water independently. Children learn how to get in and out of the water safely without their parent/guardian, jump into chest deep water (assisted by Instructor), and how to put their face in water to blow bubbles. They will also learn floats and glides while wearing a lifejacket/Personal Floatation Device (“PFD”).

PRESCHOOL 2

Preschool 2 helps children gain independence while practicing building on the foundation taught at the Preschool 1 level. They will start to jump into chest deep water unassisted and floating/gliding with different buoyant aids. Lateral rollovers and flutter kick on their back will also be practiced.

See the chart on page 23 for swim lesson days and times. Online registration codes are listed in the swim chart.

PRESCHOOL 3

Preschool 3 focuses on children’s ability to kick and glide short distances (2-3m) on their front and back. Using games, they will work on retrieving objects from the bottom of the pool (waist-deep water), and continuous work on floats and rolling over. Children will also start to enter deeper water to practice side entries and jumping in with lifejackets/PFDs.

PRESCHOOL 4

Preschool 4 strengthens flutter kicking and children will be introduced to front crawl progressions. They will be introduced to deeper water (where they cannot easily touch) with a lifejacket/PFD and will try jumping in and doing side rolls on their own.

PRESCHOOL 5

Preschool 5 is developed to help prepare children for the Swimmer Programs. They will work on short distance (5m) front crawl and back crawl. They will try forward rolls into deep water wearing a lifejacket/PFD and treading water for 10 seconds. They will also get to practice whip kick (introduction to breaststroke) and interval/fitness training.

■ SCHOOL-AGED SWIMMER PROGRAMS

The Lifesaving Society's 6-level Swimmer program makes sure your children learn how to swim before they get in too deep. Swimmer progressions accommodate children 5 years and older* including absolute beginners as well as swimmers who want to build on the basics.

To develop solid swimming strokes and skills, Instructors are trained to focus on repetitive in-water practice. Water Smart® education provides information and experiences that helps participants make smart decisions when in, on and around water and ice.

**Children must meet minimum age requirements by the start date of the program (the first swim lesson).*
